

Carbon Reduction Plan

Supplier name: **Health Call Solutions Limited**

Publication date: **August 2022**

Commitment to achieving Net Zero

Healthcall Solutions Limited T/A Health Call Solutions Ltd, is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 60 tCO₂e by 2026. This is a reduction of 9.8%

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021 baseline. The carbon emission reduction achieved by these schemes will be measured at the end of 2022.

Completed carbon reduction projects (implemented first half of 2022)

- Switched to a renewable energy provider
- Amendment to travel policy to incorporate the continuation of video conferencing meetings in place of f2f meeting wherever possible, resulting in the reduction of business mileage
- Introduction of salary sacrifice car scheme, where employees have access to electric & hybrid vehicles at favourable rates

Our proposed future carbon reduction projects may include the following

- Implementation/ adoption of ISO14001 environmental management measures
- The adoption of LED/PIR lighting controls once current lighting system expires

In the future we hope to implement further measures such as:

- Tree planting programmes
- Supporting charitable carbon neutral trusts

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
